

WASHINGTON STATE UNIVERSITY
Sensory Science Center

Help us understand foods and textures that children with intellectual and developmental disabilities like to eat!

If you are a practitioner working with children with intellectual and developmental disabilities, including Down syndrome, autism spectrum disorder, attention-deficit/hyperactivity disorder, sensory processing disorder, or avoidant/restrictive food intake disorder, we want to hear from you!

**Please follow this link to complete an on-line survey.
This will take ~15 minutes of your time.**
