# Are you a caregiver to an individual with intellectual or developmental disabilities?

## Do you want training and resources for positive sexual health support?

Help advance education for caregivers of someone with intellectual or developmental disabilities (IDD). Receive free information and support on important topics such as privacy, relationships, hygiene, and how to talk to your loved one about sexual health topics. Your participation can make a difference!

### Who can participate?

- Natural caregiver (parent, sibling, family member)
- Individual with IDD must be 18 years of age or older

### What can participants expect?

- Receive FREE training: Elevatus Sexuality Education for caregivers of people with IDD
- Complete surveys before and after training and again in 3 months
- Support individual with IDD to also participate in research
- You and the individual with IDD could earn up to \$50
