Assessment of Knowledge, Adherence, and Barriers to Medical Management Guidelines for Adults with Down syndrome.

Are you the legal guardian of an adult with Down syndrome?

We invite you to complete a survey, either on your own or with the adult with Down syndrome, to help improve understanding of medical care experiences in relation to adult Down syndrome medical management guidelines.

The purpose of this study is to assess knowledge of medical management guidelines, evaluate adherence to those guidelines, and identify barriers that interfere with adults with Down syndrome receiving care consistent with those guidelines.

YOU MAY QUALIFY IF

- You are over the age of 18 years.
- You are the legal guardian of an individual over 18 years of age who was diagnosed with Down syndrome.
- You have access to an electronic device to complete the online questionnaire.

PARTICIPATION INVOLVES

- Completion of an anonymous 15-20 minute survey
- No anticipated risks of participating in this study

SCAN FOR SURVEY

The researchers conducting this study will donate $1.00 for every survey completed, up to $300.00, to the Down Syndrome Association of Central Ohio (DSACO).
